Membership

There are different routes to membership, as explained in detail in the Constitution and By-laws..

1. The **normal** route to become a full member of the ECPVS and Diplomate is to participate in a residency programme. Applicants will have gained their veterinary degree at least 48 months previously from an EAEVE approved veterinary course.- though this may be waived in individual cases.. Full details re Residence may be found from the following link.

RESIDENCY

Alternative route

2. Candidates who are already **internationally recognised** in the field of poultry veterinary science may be permitted , at the discretion of the Credentials Committee and the Executive Committee, to proceed directly to examination, without fulfilling the requirements of a residency programme.

In either of these cases, candidates must also normally fulfill the following requirements:

- A. Are licensed to practise or are eligible to be licensed to practise in a European country. Applicants may be relieved of this requirement in exceptional cases.
- B. Have met the minimal publication requirements as defined by the College (at least two peer-reviewed publications in international refereed journals).

3. **Associate** Membership: The College may confer Associate member status on scientists who have contributed significantly to research in veterinary medicine. Only scientists of international repute who are active in the poultry veterinary science are admitted as Associate Members.

Gordon Memorial Trust and Annual Lecture

Dr R F "Bob" Gordon
(1908-1981)

The Robert Fraser Gordon Memorial Trust is a charity established in 1982.

The Trust's primary function is to select a person each year who has made **distinguished contributions** to a branch of poultry science.

The recipient of the award is required to deliver a **lecture** and **receives a medal** to commemorate the occasion.

The Gordon Memorial Lecture is held annually at the Annual Spring Meeting of the UK Branch of the World's Poultry Science Association.

The 38th Gordon Memorial Lecture 2023

Prof Ian Brown OBE

The 38th Gordon Memorial Lecture will be given by **Prof Ian Brown OBE**
Director of Scientific Services, APHA, Weybridge

“A paradigm shift in the high pathogenicity avian influenza and perspectives for the future”

The lecture will be on **Wednesday 29th March from 17.00 to 18.00**,
followed by a drinks reception

The lecture is delivered, as usual, during the Spring Meeting of WPSA
UK, and will be held at the **International Convention Centre (ICC),
Birmingham.**

The lecture is **open access** without formal registration, but colleagues
are encouraged to register and attend the **full WPSA meeting from 29th
to 30th March**
